

IT'S NATIONAL DROWNING PREVENTION WEEK!

JULY 19–25,
2026

DROWNING IS PREVENTABLE.

Safety Starts with You.

At **Cooper Pools**, we believe every swimmer deserves a safe and enjoyable experience. National Drowning Prevention Week is a reminder that drowning is preventable when we all take the right precautions.

POOL SAFETY TIPS:

✓ Never leave children unattended near water—even for a moment.

✓ Designate a responsible adult as the “Water Watcher.”

✓ Ensure gates and self-latching pool barriers are functioning properly.

✓ Keep life rings, shepherd's hooks, and other safety equipment easily accessible.

✓ Learn CPR—it can save a life before emergency responders arrive.

✓ Never swim alone, and always supervise inexperienced swimmers.

✓ Keep pool drains, covers, and safety devices compliant and in good working order.

WE KEEP YOUR WATER SAFE

Whether you own a residential pool, manage a commercial aquatic facility, or oversee an HOA or community pool, regular inspections and proper maintenance play a critical role in swimmer safety.

At Cooper Pools, our CPO-certified technicians are committed to helping keep pools safe, compliant, and ready to enjoy all year long.
